Press release

Stuttgart, January 18, 2009

We can help to find out the most suitable student exchange program

Brochure "School year exchange in the USA"

by Aktion Bildungsinformation e.V., edition: school year 2009 / 2010

About 15.000 students per year visit schools abroad wherefrom about 60 percent visit a school in the USA. On the other hand, more than 45 program providers do not really make easy one's choice. Aktion Bildungsinformation (**ABI**), an independent organization for consumer protection, can help. **ABI** verifies the market situation, throws light on it and gives advice. This is valid also for the school year exchange as a guest student, that is student exchange programs.

Besides individual expert advice, **ABI** also edits brochures that help answering all relevant questions and to find out the most suitable and reliable offer.

"Mighty fine! Thanks to benchmark and market overview, I've rapidly found an organization I am most happy with so far",

this is what a student's father said to Barbara Engler, the writer of the new guidebook.

The 244-sided brochure is available on payment of a nominal charge.
